(54) Title: MONITORABLE LOCKING ASSEMBLIES

(57) Abstract: A key-operated remotely monitorable locking assembly including a key-operated lock including a lock body including a key operated locking assembly and a tamper monitorable lockable assembly which is selectably locked to the lock body by operation of the mechanical key operated locking assembly and a wireless communication circuit located in a least one of the lock body and the lockable assembly for providing a remotely monitorable indication of tampering with the lockable assembly.
